

# Introducing

# **SEVEN**

Chiptech's latest digital dispersed alarm unit with 4G connectivity and enhanced safety features.

### WHO WE ARE

Chiptech is a privately owned assistive technology provider with over 20 years of experience in the industry and a person-centred approach to everything we do. We are at the forefront of the digital transformation in assistive technology with over 20,000 digital devices out in the field in the UK and over 250,000 globally.

### SEVEN

SEVEN is a 4G digital base unit with voice-guided installation, exceptional pendant range and personal safety features focussed on keeping people safely independent within their own homes.

## CHIPTECH GO

Chiptech GO is a digital GPS Speech pendant with fall detector. GO encourages you to have more independence in day-to-day activities, both at home and out and about. GO also connects to SEVEN for an elegant one pendant solution.

# **SEVEN**

## 4G digital base unit with advanced safety features and person-centred innovations

#### 4G Roaming Connectivity

Roaming SIMs and advanced algorithms to give best in class connectivity

#### Test Pendant Function

A configurable periodic pendant test system to encourage service user testing
